

Clark Forklift Part

Clark Forklift Parts - Performing globally, there are currently 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those operating in North America. Clark has five major lines of forklifts across the world, making it one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive brands of forklifts, with parts covering more than 120,000 specialized components for all of its automated equipment. Your regional Clark Dealer is your total source for availability of all your parts needs provided by Clark Totalift.

Clark features a exceptional Parts Distribution team. The components warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their customers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to offer the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to enhancing output and benefiting performance.

Internationally, Clark has one of the most outstanding dealer support networks. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the material handling market.

Clark proudly remains an progressive leader of the material handling industry, pioneering protection features such as the worker restraint system. This exceptional dedication to safety is at this time a customary feature on every forklift.

Clark has a relentless mission to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its manufacturing plants. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental limitations, thus placing them in a dominant industry position.

Clark has preferred the particularly economical and beneficial structure of "Lean Manufacturing" for its assembly facilities and application of resources. This structure was developed to acknowledge the most effective approaches of production facility stewardship and ensuring maximum efficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards improving product proficiency while minimizing costs. The contemporary value engineering program combines modern product improvement and delivers improved consumer support and service within the industry.
