

Meritor Part

Meritor Part - Meritor is a premier international supplier that is proudly built on a 100 year tradition of quality and service. They concentrate on various modules, integrated systems and parts to original machine makers and the aftermarket for the industrial and transportation trades.

Meritor values the needs of all their clients to ensure their success while priding itself in the company's unique energy and believes this output of energy to be their competitive advantage in their international operations. Meritor starts with a philosophy that values diversity of people and their broad thought processes. Operating in 19 nations and employing more than eleven thousand two hundred individuals, Meritor promotes innovation and collaboration among a team of knowledgeable professionals.

Meritor strongly believes in only hiring future focused staff. These top-caliber people can rapidly adapt to changing environments and freely exhibit the level of commitment and performance needed to be able to attain results for the competitive market environment. The company empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor provides their workers various possibilities for professional and personal development.

Their Advanced Engineering team is at the forefront of components and system engineering which comprise axles, drivelines, braking and suspension systems for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is also responsible for supporting the needs of all their global engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group which is dedicated to ensuring optimum growth at their production plants and aftermarket distribution facilities that are situated on 5 continents and in 19 nations.

The supplier development network is particularly located so as to support new business development. Regional teams are supported by international quality systems, centralized specialties and initiatives in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making within each and every aspect of the company. The DFSS or Design for Six Sigma ensures product reliability in every region. The team is also comprised of transactional Green Belts who apply Six Sigma tools to business processes and apply lean techniques.
